

AUDIO / VISUAL REQUIREMENTS FOR MERIKAY TILLMAN

Wireless Lavalier Microphone

Merikay loves to move around and keep her audience engaged, a lavalier Microphone with fresh batteries would be terrific! Please provide a handheld microphone as a back-up if possible.

Platform Riser

If audiences will be 50 or more, please provide a riser that is 2-3 feet high if possible so that all audience members will have view of presenter.

Seating Preference

Theater or classroom style seating works great! If unavailable, U or V shape seating works as well.

Sound Check

Merikay loves to check out the meeting room at least one hour prior to launch. If a sound a/v expert can be available the first few minutes of the start of the presentation, that would be an added blessing!

If you have any questions, please contact Leslie@CoachMKay.com or call 336 209-2416 – Leslie Dupuis, Director of Business Development
